- Sound analytical and problem solving skills.
- Effective presentation skills - both written and verbal.
- Must have a customer focused view of service and support.
- Experience with FTP.

To apply for this vacancy, please send your CV to Cv@actvet.ac.ae with your name and Senior Oracle Applications Developer in the subject title.

CV Guidelines:

Your CV should be limited to TWO pages only

- **If you need assistance with your CV please contact Andrea Naylor the Career Counselor for an appointment she can help to review and improve your CV to maximize your chances of gaining an interview.**
- **In general, when you communicate via email, you need to put some words/note in your compose page, rather than just attaching the CV without any acknowledgment. You should introduce yourself, explain you wish to apply for the vacancy and indicate when you would be available for interview. Ensure you end your e mail in a positive and professional manner otherwise your application may be rejected.**
- **Save your CV as a .doc file, not a pdf or .docx, or any other type. Do not use tables or other complicated formatting in your CV, it makes it too difficult to amend later. Make sure your CV has no spelling errors, missing information, or other problems.**
